self-assessment and action planning tools
⊙ essential element 5

This self-assessment and action planning tool will help you to identify gaps in current systems and plan the actions required to achieve *Essential element 5: Organisational supports*.

The tool is designed to help ensure that a whole facility, or individual wards or clinical areas identify:

- What systems are or are not in place, or what systems are in place but are not operating effectively

- The reasons why these systems may not be in place or operating effectively

- The actions that are needed to address system problems or barriers that are identified.

Achieving this essential element involves one task.

1. Provide a clinical governance framework to support systems for recognising and responding to clinical deterioration.

For each task there are five key questions to consider. These questions are specified for each task in the self-assessment tool.

1. Agreement – do health professionals agree on the basis for the task, the best way to perform the task, and who is responsible?

2. Process or policy – are processes in place, or do policies exist, to achieve the task?

3. Resources – does the facility, ward or clinical area have the necessary resources to achieve the task?

4. Knowledge – are clinical and non-clinical health professionals educated about the importance of the task?

5. Systems to support monitoring and evaluation – does the facility conduct audits, review or evaluations to ensure the task is performed properly?

Work through each question and record your answers, specifying the documents or data that prove the facility, ward or clinical area meets the criteria. This will help to identify any gaps and barriers to implementation in the facility or clinical area.

Follow the instructions in the tool to complete the action plan, which links the barriers with specific actions to address them.

The page numbers in the action plan act as navigational guides, directing you to the appropriate actions in the comprehensive *Guide to Support Implementation of the National Consensus Statement: Essential Elements for Recognising and Responding to Clinical Deterioration*. This is available for download from: **www.safetyandquality.gov.au**

Actions that are low cost, easy to implement and have high impact may be a useful starting point for implementation. Facilities may also prefer to prioritise tasks that are required to meet the National Safety and Quality Health Service Standards.

about this tool

This tool is available as a Portable Document Format (PDF) file which can be saved to your desktop for direct electronic data entry or printed for use.

It has been designed for use in conjunction with the Australian Commission on Safety and Quality in Health Care publication *A Guide to Implementation of the National Consensus Statement: Essential Elements for Recognising and Responding to Clinical Deterioration* (2012).

This tool and further information about recognition and response systems can be downloaded from: **www.safetyandquality.gov.au**

further information

Further information about implementing recognition and response systems can be found on the Australian Commission on Safety and Quality in Health Care web site.

The National Consensus Statement, the comprehensive implementation guide, a series of quick-start guides, and many other tools and resources are available for download from: **www.safetyandquality.gov.au**

NAME OF FACILITY BEING ASSESSED:

⊙ **task 1** **Provide a clinical governance framework to support systems for recognising and responding to clinical deterioration**	Data or documentation that proves the criteria have been met		Are these policies/processes/ resources operating as planned? Does your data demonstrate effective operation at all times?
	Type of data or name of document	**Where is it kept?**	
AGREEMENT Has a committee or individual with governance responsibility been identified for recognition and response systems?	☐ **YES** ▸ Fill in next two columns ☐ **NO** ▸ Tick 'Lack of agreement' in your action plan		☐ **YES** ▸ WELL DONE! Continue to monitor ☐ **NO** ▸ Why not? What are the barriers? Add these to your action plan
PROCESS OR POLICY Have terms of reference, roles and responsibilities for the governance committee or individual been developed?	☐ **YES** ▸ Fill in next two columns ☐ **NO** ▸ Tick 'Lack of process/ policy' in your action plan		☐ **YES** ▸ WELL DONE! Continue to monitor ☐ **NO** ▸ Why not? What are the barriers? Add these to your action plan
Have policies for recognition and response systems been developed and included in the governance framework?	☐ **YES** ▸ Fill in next two columns ☐ **NO** ▸ Tick 'Lack of process/ policy' in your action plan		☐ **YES** ▸ WELL DONE! Continue to monitor ☐ **NO** ▸ Why not? What are the barriers? Add these to your action plan
RESOURCES Are consumers, clinicians, managers and executives included in the governance framework?	☐ **YES** ▸ Fill in next two columns ☐ **NO** ▸ Tick 'Lack of resources' in your action plan		☐ **YES** ▸ WELL DONE! Continue to monitor ☐ **NO** ▸ Why not? What are the barriers? Add these to your action plan
Do the governance frameworks include an advisory component for the allocation, prioritisation and maintenance of relevant resources?	☐ **YES** ▸ Fill in next two columns ☐ **NO** ▸ Tick 'Lack of resources' in your action plan		☐ **YES** ▸ WELL DONE! Continue to monitor ☐ **NO** ▸ Why not? What are the barriers? Add these to your action plan
KNOWLEDGE Do health professionals know how to participate and provide input into governance frameworks?	☐ **YES** ▸ Fill in next two columns ☐ **NO** ▸ Tick 'Lack of knowledge' in your action plan		☐ **YES** ▸ WELL DONE! Continue to monitor ☐ **NO** ▸ Why not? What are the barriers? Add these to your action plan
SYSTEMS TO SUPPORT MONITORING AND EVALUATION Is the effectiveness of the governance frameworks for recognition and response systems evaluated?	☐ **YES** ▸ Fill in next two columns ☐ **NO** ▸ Tick 'Lack of monitoring and evaluation' in your action plan		☐ **YES** ▸ WELL DONE! Continue to monitor ☐ **NO** ▸ Why not? What are the barriers? Add these to your action plan

action plan ▸ ORGANISATIONAL SUPPORTS

Use the information from the self-assessment tool to complete the action plan. The action plan links the barriers identified by the self-assessment tool with specific actions, tools and resources to address them.
