

Do you have a My Health Record?

**Ask your nurse,
doctor or allied
health professional
to check your
My Health Record.**

If you have information in your My Health Record that is relevant to your visit to the emergency department, please ask the staff to access it.

For more information:

My Health Record

Our new health hub.

My Health Record: Patient info all in one place.

Access a patient's My Health Record:

- At registration and triage
- At the bedside
- When undertaking patient assessment
- During medication reconciliation.

My Health Record

It's time to go digital

My Health Record: Connected and collaborative

Try checking your patient's My Health Record for information from other hospitals, GPs, community pharmacies and pathology & diagnostics providers.

My Health Record

Access. Anywhere.

My Health Record: Follows your patient, wherever they happen to be.

You can access information
through My Health Record for
your patients travelling interstate.

No more doubles.

My Health Record: Reduce duplicate diagnostic tests.

Pathology and diagnostic imaging reports are now being uploaded into My Health Record. Check for recent diagnostic results to avoid unnecessary tests and procedures.
