

## Western Australia Country Health Service (WACHS) iSoBAR e-learning education toolkit

### Directions for downloading and running the education program:

1. Click to download and save the ZIP file to your computer.
2. Once the download is complete, click on 'Open' to bring up the ZIP folder.
3. Select all files and click on the 'Extract to' icon at the top and extract to your selected location.
4. There should be three icons - A 'content' folder, 'index' in html and 'index' in htma.
5. Click on 'index' in html to launch the program through Internet Explorer, otherwise click on 'index' in htma to launch it as a separate application.
